**Who would have thought a simple ring could cause so much trouble?**

Marin and Urin are sea folk, people who live in a peaceful underwater world surrounded by bright fish and colorful coral. But one day, a beautiful ring falls from the “sky” - that dangerous place above the water - and the two girls decide to return the lovely trinket to its owner.

While the surface world holds amazing wonders for the pair, it also hides a great darkness... a darkness that Urin accidentally unleashes when she opens a stone box at a local shrine. Now it's up to Marin, Urin, and their new friend Kanon to set things right again before that darkness swallows the entire world!

**Immerse yourself in an adventure-filled fantasy world!**

Leicester Maycraft leads a charmed life. His parents are nobility and he spends his days crafting inventions and questing alongside his friends in Clan Oasis. It also doesn't hurt that every pretty girl in town is in love with him, including the Duke's daughter, Carina Verriti. Life couldn't possibly get any better. Until it does. Energy from a supernatural meteor shower awakens the adorable automaton, Minette, who imprints on Leicester as her "papa". Just like that, Leicester's entourage of beautiful girls goes from flattering to ridiculous.

Joined by Sacred Knight Chelsea Arcot and automaton artisan Agnes Boulange, Clan Oasis sets out to discover Minette's origin. But all work and no play isn't exactly what these adventurers have in mind. They'll get around to solving the mystery — when they're not performing oddball quests or hanging out at the beach!
